

Voice AI challenge by Leaping AI (YC W25)

Challenge brief

Voice AI agents are the hot topic of 2025! They can be used for anything from customer service to sales enablement to ops. Dive into the world of voice AI agents by leveraging Lovable + the beginner-friendly tools + APIs of Leaping AI – an innovative voice AI agent platform company based out of San Francisco. Amaze the world by building a killer voice AI agent!

How to get started

Log into platform.leaping.ai

Username: hackathon@cdtm.com

Password: 12345678

There you will find a template agent that you can clone to make your own voice AI agent. We provided free phone numbers for the voice AI agents for the hackathon and you can claim them by going to the Telephony tab in platform.leaping.ai and renaming one of the unclaimed phone numbers to your team name.

All the numbers are US numbers. To make calls to them, download the Aircall app on your phone and log in using our credentials:

- kevin.wu@leapingai.com
- PW: Kwu&29811

Please watch this tutorial to learn how to use the Leaping AI platform:

<https://www.youtube.com/watch?v=xSajXYJmxW4>

An user guide can be found here: <https://docs.leaping.ai/essentials/home> (PW: smartercallseveryday)

If you would like to place outbound calls via an API, you can find our API reference here: <https://docs.leaping.ai/api-reference/introduction> (PW: smartercallseveryday)

Good luck!
